

## PRONSURE®

**PRONSURE® IS A MULTI-STRAIN PROBIOTIC CONTAINING LIVE BENEFICIAL BACTERIA.**

**PRESENTATION:** There are different types of PRONSURE®:

- PRONSURE® POWDER - In feed formula containing 60 million colony forming units (CFU)/g
- PRONSURE® SOLUBLE - Water soluble formula containing 180 million CFU/g
- PRONSURE® PASTE - Oral paste formula containing 180 million CFU/g
- PRONSURE® LIQUID - Oil based formula containing 180 million CFU/mL

**ACTIVE CONSTITUENTS:** Each g or mL contains: *Lactobacillus acidophilus*, *Lactobacillus delbrueckii* subspecies *bulgaricus*, *Lactobacillus plantarum*, *Lactobacillus rhamnosus*; *Bifidobacterium bifidum*; *Enterococcus faecium*; *Streptococcus salivarius* subspecies *thermophilus*.

**PROPERTIES:** PRONSURE® is a blend of live viable microbes which benefits the host animal by improving the intestinal microbial balance. Everyday use of PRONSURE® helps maintain a balanced digestive system, thus optimising digestion of feed and enhancing your animals' health, naturally. These microbes are safe, non-toxic and residue free.

PRONSURE® may be used during periods of stress (stresses disrupt the normal intestinal balance), e.g. overcrowding, pregnancy and lactation, scouring and diarrhoea, temperature extremes, transportation, training and exercise, and medication; and following animal husbandry procedures or practices such as antibiotic use, birth, castration, debeaking/dehorning, diet changes, loss of appetite, surgery, vaccination, weaning and worming. PRONSURE® is compatible with feed ingredients including anthelmintics, coccidiostats, minerals and vitamins, and some antibiotics.

Indications for use (Australia):	Indications for use (New Zealand):
<ul style="list-style-type: none"> <li>• An aid during periods of intestinal dysfunction in all animals, including treatment and control of scouring or diarrhoea, exclusion and suppression of pathogens such as <i>E. coli</i>, <i>Salmonella</i> spp. and <i>Aeromonas</i> spp.</li> <li>• Post-antibiotic therapy in all animals for the re-establishment of gut microflora following antibiotic usage.</li> <li>• Improved weight gains and feed conversion in growing pigs and cattle.</li> <li>• Productivity improvements and reduced mortality in poultry.</li> <li>• Aids in the establishment of gastrointestinal microflora of physiologically immature animals, e.g. day old chicks, neonatal calves, pigs, foals, lambs and kids, puppies and kittens.</li> </ul>	<ul style="list-style-type: none"> <li>• An aid during periods of intestinal dysfunction in all animals.</li> <li>• Post-antibiotic therapy in all animals for the re-establishment of gut microflora following antibiotic use.</li> <li>• Improved weight gains and feed conversion in growing pigs and cattle.</li> <li>• Productivity improvements and reduced mortality in poultry.</li> <li>• Aids in the establishment of gastrointestinal microflora of physiologically immature animals, e.g. day old chicks, neonatal calves, pigs, foals, lambs and kids, puppies and kittens.</li> </ul>

### DOSAGE AND ADMINISTRATION:

(Australia)	(New Zealand)
<b>RESTRAINT:</b> PRONSURE® should not be used in conjunction with Penicillins, Cephalosporins, Tetracyclines, Avoparcin, Gentomycin, Lincomycin, Streptomycin, Tiamulin or Tylosin, but may be used immediately following these antibiotics.	<b>RESTRAINT:</b> Using concurrently with some antibiotics may compromise beneficial effects. PRONSURE® efficacy may be reduced if used in conjunction with some antibiotics. Please contact International Animal Health Products for advice regarding the use of PRONSURE® in conjunction with antibiotics.

#### (Australia & New Zealand)

**Individual Dose:** Use at stress levels for the first 5 days then at the maintenance dose level. **In-Feed:** Refer to label for instructions.

<b>BROILERS/LAYERS</b>			0.5-1.5	500 g/500 L**					165-500 mL
<b>CAGED BIRDS:</b>				1 g/L**			1 mL/500 g feed		

\*Use as a guide only. Rates may vary depending on daily feed intakes. ♦ (Small-2 g, Medium-4 g, Large-6 g). \*\*Add P. Soluble to drinking water – make fresh daily. For other animals contact International Animal Health Products. **NOTE:** A level measure holds around 2 g (small), 25 g (large) (P. POWDER, P. SOLUBLE) & the finger pump delivers 1.5 mL (P. LIQUID).

**WITHHOLDING PERIODS: MEAT: NIL; MILK: NIL; EGGS: NIL**

**TRADE ADVICE:** EXPORT SLAUGHTER INTERVAL (ESI): ESI not required (Australia)

**POISONS SCHEDULE:** EXEMPT (Australia)

**REGULATORY STATUS:** Australia: AUSTRALIAN PESTICIDES & VETERINARY MEDICINES AUTHORITY  
New Zealand: EXEMPT

**PACK SIZES:** PRONSURE® POWDER: 125 g, 250 g, 1 kg, 5 kg, 25 kg  
PRONSURE® PASTE: 30 g, 100 g (syringe)  
PRONSURE® SOLUBLE: 125 g, 250 g, 500 g, 2.5 kg, 25 kg  
PRONSURE® LIQUID: 125 mL, 250 mL, 1 L, 5 L, 25 L
